Position holder	Nicky Ingram
Approval date	_____
Effective date	_____
Review interval	Annually, and whenever the role changes
Next review due	_____
Legal entity	Prayers of Care Inc
NPI	1043895022
CARF areas served	1.I Workforce Development and Management (p.80); 1.A Leadership (p.31)
Consultant	Successful Solutions (Tom Garner) — consultant only; not an officer or employee of Prayers of Care Inc

1. Position

Title	Chief Executive Officer / Owner
Reports to	No internal supervisor. As CEO and owner of the corporation, accountable to the corporation itself and, externally, to regulators, payers, the state licensing authority and CARF.
Supervises	Directly: `[FILL IN]`. Indirectly: all staff. See ORG-01.
FLSA status	`[FILL IN — ask your accountant]`
Employment status	`[FILL IN — W-2 employee of the corporation / owner draw / other]`
Work location	`[FILL IN — office address, plus community and in-home settings across the service area]`
Hours	`[FILL IN]`

On FLSA and employment status: whether the CEO of a corporation is a W-2 employee, and whether she is exempt, depends on how the corporation is set up and how she is paid. That is a question for your accountant or an employment attorney, not for a consultant or a template. **Do not guess it here** — a wrong answer on a job description is the kind of thing that shows up later in a wage claim or a tax review. Leave it blank until someone qualified answers it.

2. Purpose of the role

Lead Prayers of Care Inc. Ensure that Community Integration services delivered through peer support are safe, ethical, person-centered, lawfully delivered and accurately documented — and that the agency can show it.

3. Essential functions

These are the functions of the job for the purposes of the Americans with Disabilities Act. A qualified person must be able to perform them with or without reasonable accommodation.

Leadership and planning

1. Set, model and uphold the mission, vision and values.
2. Own the strategic plan and its documented annual review.
3. Hold leadership meetings at least monthly, with minutes recording decisions, owners and dates.
4. Maintain the Decision Log required in place of board minutes (LEAD-01, section G).
5. Sponsor accreditation preparation. CARF prep lead: `[FILL IN — self, or a named person]`

Program and quality

6. Ensure the written Community Integration program description matches what the agency actually does, and correct whichever is wrong when they diverge.
7. Protect the rights, privacy, dignity and accessibility of every person served.
8. Ensure performance is measured, analysed at least annually, acted on, and **reported back to staff and to the people served**.

9. Ensure incidents are reported, reviewed within the required timeframe, analysed for trends, and closed with verified corrections.

Workforce

10. Hire, verify credentials for, orient and supervise key staff, or delegate that in writing.
11. Ensure every peer support role has written competencies, boundaries and a disclosure plan.
12. Ensure supervision, competency assessment and annual appraisal happen on schedule.
13. Ensure no staff member delivers service before credential verification, orientation and competency are complete and documented.

Compliance and risk

14. Maintain licences, certifications, enrollments and insurance. Types held: `[FILL IN — state licence type/number, Medicaid/NPI enrollment, general and professional liability, workers' compensation, auto]`
15. Oversee health and safety: inspections, drills on every shift, emergency readiness.
16. Manage contracts and payer requirements, including documentation and billing rules.
17. Maintain the risk register and review it at least annually.
18. Ensure mandated reports — abuse, neglect, exploitation, critical incidents — are made within required timeframes.

Finance and operations

19. Prepare and monitor the budget; compare actual to budget monthly.
20. Oversee billing integrity: no claim is submitted that the documentation does not support.
21. Maintain internal controls and the compensating controls recorded in ORG-01 section 5.
22. Approve major policies and record the approval.

Community

23. Build and maintain referral and community partnerships.
24. Represent the agency publicly — **accurately**. See section 5.

4. What this role does NOT do

Stating the limits protects the agency as much as stating the duties.

- **Does not deliver peer support as a credentialed peer specialist** unless the CEO personally holds the state peer credential and is assessed as competent like any other staff member. If she does deliver direct service, she is subject to the same credential verification, supervision, competency assessment and documentation review as everyone else — and someone other than her must review her documentation. Delivers direct service? `[FILL IN — yes / no]`
- **Does not provide clinical services**, assessment, diagnosis or therapy.
- **Does not prescribe, dispense, administer, store or transport medication**. Prayers of Care Inc does not offer medication management.
- **Does not review or approve her own service documentation** where she delivers service.
- **Does not act as the sole route for complaints about herself**. See ORG-01 section 5.

5. Accurate representation of accreditation status

The original draft listed "no false accreditation claims" as a success measure. It belongs in the job description as a duty, because it is the CEO who signs the marketing.

1. Until CARF accreditation is awarded, the agency **does not** describe itself as accredited, CARF-accredited, CARF-approved, CARF-certified, or as meeting CARF standards — in any material, on the website, in social media, in grant applications, in referral packets or verbally.
2. "Preparing for CARF accreditation" or "pursuing CARF accreditation" is accurate and may be used. Nothing stronger.
3. If accreditation is awarded, the agency uses the accreditation seal and wording **only** as CARF permits, naming the specific program accredited and the term, and stops using them the day the term ends or the status changes.
4. The CEO reviews every public material against this rule before it is published, and records the check on the ORG-01 publication table.

Why this matters more than it looks: claiming an accreditation the agency does not hold is a misrepresentation to payers and to the people it serves. It is one of the few things that can end an accreditation application outright, and it is also exactly the sort of statement a competitor or a disgruntled former employee reports.

6. Qualifications

Experience in behavioral health, recovery services or related leadership	`[FILL IN — required years]`
Knowledge of peer support and community integration	Preferred
State peer credential	Required only if delivering direct peer support — see section 4
Criminal background check	Required, before service delivery
Abuse and neglect registry check	Required
Federal and state exclusion list screening	Required at hire and monthly thereafter
Valid driver's licence, acceptable driving record, insured vehicle	Required if transporting persons served
Other	`[FILL IN]`

Exclusion screening applies to the owner too. An excluded individual in an ownership or managing role can render the whole entity ineligible to bill federal health care programs. This is not a formality and it is not only about employees.

7. Physical and travel requirements

Required by the job description standard, and routinely missing from small-agency job descriptions.

- Travel across the service area: `[FILL IN — counties]`
- Drive, or arrange reliable transport, during business hours
- Enter community locations and the homes of persons served, including stairs and settings the agency does not control
- Occasional evening or weekend work
- Lift up to `[FILL IN]` lbs occasionally
- Use a computer and telephone for extended periods
- Reasonable accommodation is available on request; requests are handled per the accessibility policy and responded to within five business days

8. Success measures

Each measure names where the evidence lives, so the annual appraisal is a review of facts rather than impressions.

#	Measure	Target	Where the evidence is
1	Policies adopted, reviewed and re-dated on schedule	100%	Master Document Register
2	Leadership meetings held with minutes	≥ 12 per year	Minutes file
3	Decision Log maintained	Every major decision entered	LEAD-01 section G
4	Drills completed on every shift, at least one unannounced	100%	Drill log
5	Required training current for all staff	100%	Training log
6	Credentials verified and current for all staff	100%	Credential log
7	Incidents reviewed within five business days	100%	Incident log
8	Grievances answered within the stated timeframes	100%	Grievance log
9	Input from persons served collected, analysed and reported back	Annually, within 90 days	Input analysis + distribution log
10	Performance analysed annually and shared with staff and persons served	Annually	Annual analysis + distribution log
11	Budget compared to actual	Monthly	Financial file
12	No claim submitted that documentation does not support	Zero exceptions	Pre-billing review, record review
13	No inaccurate accreditation claim published	Zero exceptions	Publication check

9. Acknowledgment and approval

	Name	Signature	Date
Position holder	Nicky Ingram	_____	_____
Approved by	Nicky Ingram, CEO / Owner	_____	_____

On signing both lines. In an owner-operated corporation the same person holds the job and approves the job description. That is unavoidable and it is not a problem — **provided it is visible**. Sign both lines rather than leaving the approval blank or having someone else sign who does not have the authority. A surveyor who sees one signature on both lines understands a sole-owner agency immediately. A missing signature, or a borrowed one, raises a different and worse question.

10. Annual review record

Review due	Completed (date)	Reviewed by	Changes made, or "reviewed, no change"	New version
------------	------------------	-------------	--	-------------

What a surveyor will ask

They ask	They are testing	What has to be true
"Show me the CEO's signed job description."	1.I — everyone has one, including the owner	It exists, it is signed, and it is dated within twelve months
"Do you deliver direct service? Who verifies your credential and reviews your notes?"	Whether the owner is held to the same standard	A named person, or a clear "no, I do not deliver service"
"Has the owner been screened against the exclusion lists?"	Federal billing eligibility	Yes, at hire and monthly, with dates
"Does your website say you are CARF accredited?"	Section 5	It does not, until you are
"What are the physical requirements of this job?"	Job description completeness	Section 7 answers it
