## Manual Verification Worksheet

Check this packet's section map against your purchased 2026 manual

**DRAFT - the CARF section map behind this document has NOT been checked against the purchased manual. Set manual\_verified: true before use.**

Program: Community Integration  
Completing this is what clears the DRAFT stamp  
Generated 2026-09-05

## Why this worksheet exists

---

Nobody who built this packet has read your CARF manual. CARF's standards are copyrighted and sold only by CARF, so **this packet contains no CARF standard text** — it is organized to the manual's long-standing outline and written from scratch.

That outline has been stable for years and is very probably right. **Probably is not good enough to build an accreditation on.** This worksheet is how a human with the real manual open turns an assumption into a checked fact.

**ONE RULE WHILE YOU WORK: DO NOT COPY TEXT OUT OF THE MANUAL INTO THIS SHEET.**

Write the **standard number** and **your own few words** about what it requires. Copying CARF's wording into a document you then circulate is a copyright problem, and it is not necessary — a number and a short note is all anyone needs to act on.

### How to do it

1. Open the purchased manual at its contents pages, and open `\_engine/content/meta/standards\_map.json` beside it.
2. Work the section check below, then one page per area. Expect it to take an hour or two.
3. Where a letter or a name differs, write what the manual actually says, then correct `standards\_map.json` to match. The whole packet re-labels itself on the next build.
4. Where you find a standard the bundled policies do not cover, write it in box 5 of that page. Those go straight onto the self-study checklist as gaps.
5. Sign the last page, set `manual\_verified: true` in `provider.json`, and rebuild. The DRAFT stamp disappears.

**Do not sign the last page unless you actually did every page.** The DRAFT stamp is a protection, not an inconvenience: it stops a document going to a surveyor claiming an alignment nobody confirmed.

## Part 1 — The three sections

Before the areas, confirm the top-level structure.

## Part 2 — Area by area

---

24 pages follow, one per area. Page 3.PEER is the exception and says so on its own page.

## Area 1.A — Leadership

### 1. Does this area appear in your manual?

☐ Yes — same letter, same name

☐ Yes — but renamed to: \_\_\_\_\_

☐ Yes — but renumbered to: \_\_\_\_\_

☐ Merged into: \_\_\_\_\_

☐ Split into: \_\_\_\_\_

☐ Not in my manual at all

Manual page numbers: \_\_\_\_\_ Number of standards in this area: \_\_\_\_\_

### 2. What this packet assumes the area covers

Leadership is identified, accountable, and ethical. There is a written code of ethics, a way to raise concerns without retaliation, a corporate compliance program, and evidence that leadership considers cultural competency and the needs of the people served when making decisions.

Does that match your manual? ☐ Yes ☐ Mostly ☐ No

If mostly or no, what is different (your words, not the manual's):

### 2. What this packet assumes the area covers

If the organization has a governing board, the board has written duties, meets, keeps minutes, evaluates the CEO, evaluates itself, and manages conflicts of interest. A sole-owner agency documents who performs these governance functions instead.

Does that match your manual? ☐ Yes ☐ Mostly ☐ No

If mostly or no, what is different (your words, not the manual's):

☐ Merged into: \_\_\_\_\_

☐ Split into: \_\_\_\_\_

☐ Not in my manual at all

Manual page numbers: \_\_\_\_\_ Number of standards in this area: \_\_\_\_\_

### 2. What this packet assumes the area covers

A written strategic plan exists that was built from real inputs: what is happening in the environment, what stakeholders expect, financial reality, technology, workforce, and risk. It is reviewed at least annually and the review is documented.

Does that match your manual? ☐ Yes ☐ Mostly ☐ No

If mostly or no, what is different (your words, not the manual's):

### 2. What this packet assumes the area covers

A written commitment to nonviolent practice: de-escalation training for staff, what is prohibited, what to do in a behavioral crisis, when to call for help, and a debriefing with the person served and staff after any crisis event.

Does that match your manual? ☐ Yes ☐ Mostly ☐ No

The program helps people participate in community life as they choose - housing, work, education, benefits, relationships, transportation, recreation, health care, and civic life. It is built on the person's own goals, uses natural supports and real community settings rather than segregated ones, and measures actual community participation, not just service contacts.

## Area 3.PEER — Peer Workforce Requirements (cross-cutting)

**THIS IS NOT A CARF AREA — IT IS THIS PACKET'S OWN GROUPING.**

Peer support is a workforce and a service model, not a CARF section. There is nothing in the manual numbered 3.PEER. This grouping exists so nothing peer-specific falls between 1.I, 2.A, 2.C and the Section 3 program.

**What to check instead:** that each policy listed below has a home in a real area of your manual, and write that area beside it.

### 1. Does this area appear in your manual?

☐ Yes — same letter, same name

☐ Yes — but renamed to: \_\_\_\_\_

☐ Yes — but renumbered to: \_\_\_\_\_

☐ Merged into: \_\_\_\_\_

☐ Split into: \_\_\_\_\_

☐ Not in my manual at all

Manual page numbers: \_\_\_\_\_ Number of standards in this area: \_\_\_\_\_

### 2. What this packet assumes the area covers

Peer support is a WORKFORCE and a service model, not a separate CARF program section. Its requirements are enforced through 1.I (credential, competency, supervision), 2.A (program description and staffing), 2.C (person-centered planning done WITH the person), and the Section 3 program. This area exists so nothing peer-specific falls between the cracks: lived experience as a job qualification, the state peer credential, self-disclosure boundaries, mutuality, dual-relationship management in small recovery communities, peer staff wellness, and career ladder.

Does that match your manual? ☐ Yes ☐ Mostly ☐ No
